BYRON

MINN.

We take pleasure in sending you our latest catalog, and hope you will study it closely. You will find in it everything needed for your orchard, garden or landscape planting, including the best of the old as well as many new varieties of merit that have been well tested.

These catalogs are sent into practically every home within a radius of thirty miles and they place you in direct contact with the most practical and economical method of supplying all your needs in trees, shrubs, evergreens, perennials, annual plants, lawn grass seed, fertilizers, etc.

We want you to feel that your interests and ours are mutual, and want you to know that we are here to give you service as well as to sell you nursery stock. So if we can aid you in any way, either in selecting varieties best suited to you needs, or in otherwise planning your planting, or in the care of your stock after planting, please do not hesitate to call upon us. We will be glad to give you the benefit of our experience and advice at any time you desire. We use two methods in handling the sale of our nursery products, Cash and Carry, and Landscape Service.

Cash and Carry

When you are ready to do some planting, whether it be ornamental planting around the house, fruit trees or berry bushes for the fruit garden, vegetable plants for the garden, or a windbreak to protect your farm buildings, just drive to the nursery and we will fill your order from our large assortment which includes nearly everything anyone can wish to plant. Many of the trees and shrubs are dug early in the spring and packed in the cool storage cellar where they remain dormant and can be safely planted as late as the last of May. And we can dig shrubs and evergreens at almost any time during the summer with a ball of dirt on the roots and they will grow for you.

Our capable salesmen will help you make your selections and will give you reliable information regarding any of your planting problems.

We make frequent deliveries to nearby towns—every day to Rochester—and can usually arrange to deliver any order that you cannot carry with you.

Landscape Service

If your home needs some trees, shrubs and evergreens and you do not know what to plant or how to arrange it, we want you to feel free to ask us to give you the benefit of our many years of experience in planning and planting home grounds. We will be glad to go to your home and assist you with your problems about foundation plantings, "outdoor living rooms," hedges, windbreaks and orchards. We will tell you what you need and you will find that our prices are very reasonable and our stock of the highest grade. This service is free and places you under no obligation.

If you are interested in any of this service, kindly let us know as soon as possible.

OUR GUARANTEE

We guarantee our nursery stock to be true to name; if anything proves otherwise, we will replace it free with the genuine or refund the amount you paid for it.

Please do not expect digging done on Sunday.

Hardy Ornamental Shrubs

IT'S Not a Home Until It's Planted. Trees and shrubbery lend a hominess that cannot be given by anything else. Surround your home with Shade Trees, Fruit Trees, Shrubby and Evergreens. They will increase the value of your property and add beauty and comfort to your surroundings.

Shrubs are as much a part of the well balanced garden as the lawn or flower borders. Many of them are as decorative as any ornamental foliage plant, while others are highly useful as cut flowers, and a well arranged planting presents an attractive appearance throughout the entire year.

Shrubs have many uses, such as a dividing line between the flower and the vegetable garden, or between the lawn and uncultivated ground beyond; as a background to a flower border; for hiding an unsightly building, fence or foundation, or they may be planted in a mixed shrubby border, in which case those of short, dense growth should be planted along the front of the border, graduating to the tall-growing kinds at the back.

ARROWWOOD—

8-10 feet. An attractive shrub with peculiar dentate leaves, bright green foliage turning to rich purple and red in the fall. White flowers followed by small blue-black berries that are relished by the birds. Does well in shade. 3-4 ft., 75c.

PINK FLOWERING ALMOND—

An early spring-flowering shrub, usually in full bloom before leaves appear. Growth dwarf and bushy, compact, with slender branches. Fine plants to use in grouping or for lawn. 2-3 ft., \$1.25.

BARBERRY

The Barberries are a most interesting family of shrubs, varying in size from two to six feet, rich in variety of leaf, flower and habit. Their orange and yellow flowers in May or June are succeeded by a small but highly colored fruit. In some of the species the foliage assumes rich autumnal tints. In many places they are much used for hedging purposes. For this use they give the best effect when grown as a loose hedge and not sheared too closely.

THUNBERGGI—

Of low, spreading growth, forming a dense, impenetrable bush. The twiggy branches are set with small, sharp thorns and in spring are covered with small yellow flowers succeeded by brilliant scarlet berries. The foliage takes a splendid autumn coloring of gold and scarlet. 12-18 inch, 40c; 18-24 inch, 60c; 2-3 ft., 75c.

RED-LEAVED—

Has rich, bright red foliage in spring that remains so during the summer if in full sun. Is unusually beautiful in fall with the red berries, and bronze and yellow of the foliage. A splendid foreground shrub; beautiful in hedges. 12-18 inch, 50c each; 18-24 inch, 75c.

KOREAN—

A new Barberry from Korea; straight upright grower. Has rich vari-colored foliage, deepening in color in the fall. Does not spread rust. Red berries on stems like currants. Suckers from the roots, making it desirable for covering steep banks. 2-3 ft., 50c; 3-4 ft., 65c.

CARAGANA

SIBERIAN PEA TREE—

Extremely hardy. Blossoms are pea like and yellow in color, coming forth in small clusters in late spring. Fine for border or group planting. Does well in shade. 3-4 ft., 75c.

CORALBERRY

A low, slender branching shrub valuable for planting in shady places and for covering steep slopes. Its beauty lies in the masses of coral berries that ripen in the fall and usually adhere all winter. 2-3 ft., 50c each.

HIGH-BUSH CRANBERRY

One of the best shrubs for ornamental planting. Extremely hardy. The white flowers of early summer are followed by brilliant red, edible berries that resemble cranberries. Leaves are large, with a vivid fall coloration. 3-4 ft., 75c.

CURRENT**ALPINE—**

One of the best shrubs for very shady locations. A dwarf shrub of dense growth with fine dark green leaves. Unexcelled for a low hedge. 18-24 inch, 60c.

COTONEASTER

A beautiful, very symmetrical growing graceful shrub that is useful for planting where a medium-sized shrub is required. Has rich, dark glossy green foliage. Splendid for shady places. 2-3 ft., 50c; 3-4 ft., 75c; 4-5 ft., \$1.00.

CISTENA CHERRY**PURPLE LEAVED SANDCHERRY—**

Grows 3 to 4 feet high, spreading about the same. Foliage of a rich dark red which makes a valuable contrast in shrub plantings. 3-4 ft., \$1.25.

FLOWERING CRABS**HOPA—**

One of the most beautiful of Prof. N. E. Hansen's productions. In spring the tree is a mass of dark red flowers, in fall covered with dark red fruits, which make a delicious jelly. 5-6 ft., \$1.50; 6-8 ft., \$2.00.

RED SILVER—

A very attractive lawn tree with maroon-red leaves overlaid with silver on the under side. Has dark red blooms followed by dark red fruit which hangs on until winter. 5-6 ft., \$1.50; 7-8 ft., \$3.00.

DOGWOOD**SIBERIAN RED TWIGGED—**

Good for border plantings where the smooth slender bright red branches make a pleasing contrast with snow and evergreens. Small white blooms early in summer, succeeded by a fall crop of ornamental berries. 3-4 ft., 50c; 4-5 ft., 75c; 5-6 ft., \$1.00.

HONEYSUCKLE**TATARIAN PINK—**

Strong upright growing shrubs which thrive under any conditions. Produces an abundance of pink flowers in May, followed by red berries in the fall. Its greyish-white bark is attractive at all times. One of the best shrubs for tall screens or border plantings.

	Each	12	100
2-3 ft.	\$.40	\$ 4.00	\$35.00
3-4 ft.75	7.50	60.00
4-5 ft.	1.00	10.00	

ZABELI—

This new outstanding Honeysuckle has the darkest red flowers of all the Honeysuckles. It is dependable and satisfactory where a tall, flowering, quick growing screen is desired. Zabeli blooms profusely in May. The flowers are followed by bright red berries. Grows 8 to 10 feet tall and is extremely hardy. You will like this new variety. 3-4 ft., 80c each; \$8.00 per 12; 4-5 ft., \$1.00 each; \$10.00 per 12.

HYDRANGEA**P. G.—**

This is the variety which blooms in August, the large cone-shaped heads of bloom being white at first then changing to pink. To secure that wonderful show of bloom which you often see, they should have a good soil, plenty of moisture and be protected from the hot south winds. An ideal location is on the north side of the house and beyond the range of the roots and shade of large trees. Severe pruning in spring will insure much larger bloom. 2-3 ft. plants, that will bloom this year, \$1.00.

**HYDRANGEA P. G.****HILLS OF SNOW—**

Large flat clusters of white blooms from June to September. May be used in either border or foundation plantings. Stands shade very well. Stems should be cut back to a few inches above the ground during the dormant season. 18-24 inch, 50c; 2-3 ft., 75c.

FORSYTHIA OVATA

Has ascending branches which arch gracefully. Flowers are pale primrose-yellow, making a beautiful sight in April before the leaves are out. Should be pruned directly after blooming to make compact bushes. If branches are cut in late winter and placed in water they will bloom in the house. 3-4 ft., \$1.00.

JUNEBERRY

One of the earliest plants to bloom in the spring. Early in the summer the edible blueberry-like berries turn red and then deep blue. These berries would have some culinary value if the birds did not always get there first. An attractive and useful shrub. 3-4 ft., 60c.

LILAC**COMMON PURPLE—**

Is perfectly hardy, makes a dense growth, flowers fragrant. Often used for hedges and screens.

	Each	10
2-3 ft.	\$.50	\$4.50

PERSIAN LILAC—

A decided improvement over the common Lilac. A shrub with slender, arching branches, attaining a height of 8 to 10 feet. The foliage is small, the flowers bright purple. Blooms in May and June. A much more profuse bloomer than the common and does not sprout from the roots. 2-3 ft., 40c; 3-4 ft., 60c; 4-5 ft., 75c.

FRENCH LILACS

With Blossoms so Large and so Beautiful one can Hardly Imagine That They are Related to the Common Lilac

ALPHONSE LAVALLEE—

D. Blue. Tall, robust growing; makes a very shapely bush. Panicles long, broad, shapely and compact. Opens an intense blue, but as the florets develop it changes to a beautiful shade of lavender. Splendid sort. 3-4 ft., \$2.00.

CHARLES JOLY—

D. Purple-red. One of the best of the double dark reds. Bush medium both in size and height, limbs growing very upright. Rather large blooms, held erect well above the foliage; very striking. 3-4 ft., \$2.00; 4-5 ft., \$3.00.

KATHARINE HAVEMEYER—

D. A splendid Lilac which we like more and more the longer we have it. It is always an outstanding variety among all our plantings. Trusses are immense, very full double, very rich and of a most beautiful mauve-pink. A very thrifty bush. One of the most persistent of bloomers. 3-4 ft., \$3.00.

MICHEL BUCHNER—

D. A beautiful Lilac differing from most varieties in the blending of its colors. As the florets open the center of each remains a deep lilac bordered with a broad outer edge of distinct lighter shades, making it a very striking variety from a distance. 3-4 ft., \$2.00.

SOUV. DE LUDWIG SPAETH—

S. Red. Although one of the oldest of the improved Lilacs still it is one of the very best Lilacs grown. It seems impossible to get a red that has so many good, and so few bad qualities as Ludwig Spaeth. Panicles long and held erect well out from the foliage. Color a brilliant intense rich purple-red, that holds up well in the sun and lasts a long time. Bush large and a very profuse bloomer. A wonderful Lilac. 3-4 ft., \$2.00.

MME. FLORENT STEPAN—

S. Tall, upright grower, light, clean foliage; long, large, extremely rich panicles. Pure white with large beautiful florets. This year this new Lilac showed up what it could really do. It is exceedingly fine. The panicles are so large, of such beautiful form, and so rich in color, we know you will like it for a fine single white. 4-5 ft., \$3.00.

OLIVE**RUSSIAN—**

10 to 12 feet. Its foliage is of a remarkable silver hue, showing up in striking contrast to the green of other shrubs and trees. Has fragrant yellow flowers. Very hardy. 2-3 ft., 60c.

SNOWBERRY

A valuable shrub in group plantings. Conspicuous on account of the masses of snow white berries produced in September and remaining on the bushes into the winter months. Height 4 to 5 feet. Pink flowers in July. 2-3 ft., 50c.

SPIREA**ANTHONY WATERER—**

Brilliant rosy carmine flowers. Blooms all summer. Always blooms the first season. Is very useful for planting in front of larger shrubs. Grows 2 feet high. 12-18 inch, 50c; 18-24 inch, 75c.

SPIREA FROEBELI—

Similar to Anthony Waterer, but a foot taller, with broader and darker leaves, which are a beautiful salmony bronze red in spring, reverting to similar shade in fall. Has reddish pink flowers in dense corymbs during July and August. 18-24 inch, 75c; 2-3 ft., \$1.00.

ARGUTA. SNOW GARLAND—

The earliest spirea to bloom, the bush becoming a mass of snowy garlands before the leaves appear. Grows 4 to 5 feet high. 2-3 ft., 75c.

KOREAN SPIREA—

Grows 5 to 7 feet tall and forms a big, dome-shaped bush covered in June with large, rounded clusters of snowy-white flowers marked with darker eyes. More robust and blooms two weeks later than the Bridal Wreath. 2-3 ft., 75c.

THUNBERGI—

May. One of the finest spring blooming, small shrubs. The flowers are pure white and are borne along the entire length of the branches, bending them down in graceful curves. Foliage narrow and willow-like and turns to pleasing shades of orange scarlet in autumn. **2-3 ft., 75c.**

**SPIREA VANHOUTTE—
(Bridal Wreath)**

Perhaps the most popular of all the Spireas and has been the most planted. It is of upright tho pendulous growth with a foliage of rich green which assumes pleasing autumnal coloring. Very graceful and ornamental even when out of bloom. When covered with its dense clusters of pure white flowers, the branches are weighted down nearly to the ground and the whole bush presents a mass of the most beautiful rich white. A beautiful shrub either for single lawn specimens or in groups. Grows 5 to 6 feet high.

	Each	12	100
2-3 ft., 3 year	\$.50	\$ 5.00	\$38.00
3-4 ft., 3 or 4 year	.75	7.50	
Large landscape size, 4-5 ft.	1.00	10.00	

SYRINGA OR MOCK ORANGE**CORONARIUS—**

The old fashioned "Sweet Syringa" with fragrant white flowers. The long branches covered with a profusion of starry white flowers are exceedingly beautiful; blooms in early spring. Suitable for massing with other shrubs or planting as specimens. **3-4 ft., 75c.**

GRANDIFLORA—

An upright, rapid growing shrub, well adapted for background planting. Has large single white flowers in June. **3-4 ft., 75c; 4-5 ft., \$1.00.**

LEMOINE—

A showy, free blooming variety with slender twiggy and slightly arching branches. Flowers are creamy white, fragrant, smaller in size than most of the varieties but because of their profuse blooming habit are most effective at blossom time. **2-3 ft., 50c; 3-4 ft., 75c.**

VIRGINAL—

One of the finest of the improved mock oranges. Flowers are very large with large petals and double crested. Usually borne in clusters of 5 to 7. Sweet scented and long blooming. We consider this to be one of the very best blooming shrubs we can grow in Minnesota. Will bloom the first season. **2-3 ft., 75c; 3-4 ft., \$1.00.**

"MINNESOTA SNOWFLAKE"**New Double Flowering
Mock Orange**

We have been hearing enthusiastic reports for several years about this new double flowering mock orange from Minneapolis, but this is the first time that stock has been available. It has an appropriate name as it really reminds you of a highly magnified snowflake. Originator's description—"This new Double Mock Orange is truly outstanding. It is all double, every blossom intensely double, exceptionally sweet scented, glistening white, large flowering, profuse bloomer, symmetrically formed, gracefully branched, neat, beautiful foliage, rugged, fast growing, and exceptionally hardy." **3-4 ft., \$1.50 each.**

COMMON SNOWBALL—

Handsome white flowers are produced in great globular clusters. Has long been one of the most popular and showy varieties on our lists. **2 ft., 50c; 3-4 ft., \$1.00.**

NINEBARK**DWARF—**

One of the newer shrubs and is very desirable as a low massing shrub and makes a hardy dense hedge of low to medium height. **2-3 ft. 60c.**

WEIGELA BRISTOL RUBY

Hardier and more vigorous than all other red Weigelas; makes a shapely, thrifty plant with attractive rich green foliage. Color of bloom is a soft ruby-red shading to garnet-crimson. Attains a height of 6 to 7 feet at maturity; requires very little pruning because it flowers well from old wood. **2-3 ft., \$1.50 each.**

**What Impression Do Your
Home Grounds Make?**

The world judges by appearances! Make no mistake about it. You are being judged every day by the appearance of your home grounds.

Particularly is this true now, when a great vogue for beautiful home surroundings is sweeping the country—when well-planted and well-kept home grounds are as much a part of the trend of the times as modern motor cars and fashionable apparel.

HEDGES—*Beautify As They Serve*

There is nothing quite so effective for the boundaries of a lawn or property division as a hedge. It does not decay, nor does it require paint, but grows more beautiful, more effective, and consequently more valuable, year after year; a good hedge is an asset to any piece of property. The first cost of installing a hedge is its only cost, so that from an economical standpoint, it is less expensive than a fence. Dense, impenetrable hedges may be had if Barberry, Buckthorn or Alpine Currant is used. The hedge plants listed below are the hardy reliable kinds that have been giving the most satisfactory results under all conditions.

ALPINE CURRANT

Absolutely hardy, free from disease and insect pests, bright green foliage which remains on the plants until late in fall. Grows very bushy and is best variety for ornamental hedge from one to three feet in height. Plant fifteen inches apart.

	10	100
12-18 inch	\$4.00	\$35.00
18-24 inch	5.00	45.00

BUCKTHORN

This not only makes a very ornamental hedge but is the best variety for protection as the branches are stiff and makes a stout hedge of any height from two to ten feet. This plant is very hardy, a vigorous grower, standing pruning exceptionally well. Plant 12 inches apart.

	10	100
2-3 feet transplants	\$2.50	\$23.00
3-4 feet transplants	3.50	30.00

HONEYSUCKLE

TATARIAN PINK—

Sometimes used as a sheared hedge, 4 to 6 feet high, but is unexcelled for a tall screen or border, growing 10 to 15 feet high.

	12	100
12-18 inch	\$2.00	\$18.00
2-3 feet	4.00	35.00
3-4 feet	7.50	60.00

THUNBERG'S BARBERRY

A graceful shrub becoming very beautiful in fall with its yellow and red leaves and red berries. Its dense growth and sharp briars make it a good hedge plant for protection from trespassers. Plant 12 to 18 inches apart.

	10	100
12-18 inch transplants.....	\$2.50	\$20.00
18-24 inch transplants, heavy	5.00	40.00

SPIREA VANHOUTTE

Often used as a sheared hedge but is especially adapted for use as a screen or snowbreak, planting them from 2 to 4 feet apart and allowing them to grow to their natural height of six or seven feet. 2-3 ft., \$5.00 per 12; \$38.00 per 100.

TREES—*For Service and Beauty*

ASH, American—

This splendid tree is becoming recognized as one of our best shade trees and is being more extensively planted each year. It is clean, symmetrical, drought resistant, and long lived. For shade or for boulevard planting American Ash will please you. 8-10 ft., \$2.00; 10-12 ft. \$3.00.

CUT-LEAF WEEPING BIRCH—

You simply couldn't find a more beautiful or graceful tree than this Weeping Birch, with white bark, long drooping branches, and tiny finely cut leaves. It is effective when used in groups of two or three. Grows to about 40 to 60 feet. 5-6 ft., \$3.00; 6-8 ft., \$5.00.

AMERICAN WHITE BIRCH—

The White Birch is a medium sized tree native in Minnesota. The bark is particularly interesting and attractive when planted near evergreens and red barked shrubs. 6-8 ft., \$2.50.

AMERICAN ELM—

A magnificent tree, growing 60 to 80 feet high, with drooping, spreading branches, one of the grandest of our native trees, makes a beautiful lawn or boulevard tree. The prices are for well shaped specimen trees. The measurement in inches means the diameter of the tree just above the ground. 6-8 ft., \$1.25; 8-10 ft., \$2.00; 10-12 ft., \$2.50; 2-2½ in., \$5.00.

MAPLE, Silver or Soft—

A good appearance and rapid growth make this tree very popular where an immediate effect is required. 6-8 ft., \$1.25; 8-10 ft., \$2.00; 1½-2 inch. \$3.00.

MAPLE, Hard or Sugar—

This is one of the most beautiful of shade or boulevard trees. It is stately in all seasons, but truly gorgeous in fall when its dense leaves are brilliant yellow, orange and scarlet. For beauty and permanence Hard Maple cannot be surpassed. 6-8 ft., \$2.50; 8-10 ft., \$3.50; 1½-2 in., \$8.00.

MAPLE, Norway—

Well liked for its pleasing and familiar symmetrical dome-shaped head. Its dense leaves are rich green in color and hold on the tree fully two weeks longer in the fall than those of other Maples. One of the best for lawn or boulevard planting where good form and shape are needed. 8-10 ft., \$4.00.

SCHWEDLER'S MAPLE—

Brilliant purplish red leaves in spring make a rich contrast with the green of other trees; gradually the highly colored leaves soften to bronze, then later to waxy green. A magnificent lawn tree. 7-8 ft., \$4.00; 8-10 ft., \$6.00.

HACKBERRY—

One of the fine trees for shade or boulevard planting. It grows quite rapidly, to a uniform shape. It is extremely hardy and develops strong crotches. An interesting tree as a specimen or in a background planting. 6-8 ft., \$1.50; 8-10 ft., \$2.50; 10-12 ft., \$3.50.

LOMBARDY POPLAR—

This is the Poplar that is so much used for avenue or background planting. They form tall stately columns of dark, shiny-green leaves. It succeeds on soil too poor for other trees, and grows rapidly. Widely used for screening and windbreak purposes because the foliage grows close to the ground. 6-8 ft., \$1.00; 8-10 ft., \$1.50; 10-12 ft., \$2.50.

LAKE CITY ELM—

The original specimen of this variety was found growing in Lake City, Minnesota. It is a type of American Elm of unusual merit. Close, upright growth, insuring it against breaking down from sleet and storm and makes trimming unnecessary. Trees are all symmetrical and uniform in shape, yet with sufficient spread to make it a valuable shade tree. It is especially adapted for boulevard planting as it does not have low spreading branches to interfere with travel on the sidewalk and pavement. 8-10 ft. trees, \$2.00; 1½-2 inch, \$4.00.

MOUNTAIN ASH, Red Berried—

One of the most ornamental trees you can possibly plant. The foliage is a beautiful green. Light, smooth bark, a broad head very compact, with gorgeous creamy white blossoms in the spring, followed by the many, many clusters of scarlet and carmine berries in the late summer and fall. It grows very rapidly and attains a height of about 30 to 40 feet. 5-6 ft., \$1.25; 6-8 ft., \$2.00; 8-10 ft., \$3.00.

NORWAY POPLAR—

The most rapid growing tree you can plant. Use this for windbreak or for a quick temporary shade tree. One year, 3-4 ft., \$10.00 per 100; transplanted trees, 6-8 ft., \$1.25 each; 8-10 ft., \$2.00.

NIOBE WEeping WILLOW—

The golden Weeping Willow, the most beautiful in that species. Splendid as a lawn tree, for planting near pools or along the banks of streams. A graceful weeping tree with deep rich golden bark on trunk and along the long slender weeping branches. Hardest of all the Weeping Willows. Very beautiful in the winter because of its rich yellow bark, which makes it very conspicuous. Absolutely hardy here in Minnesota. 6-8 ft. \$2.00.

**AMERICAN ELM**

CLIMBING VINES

BITTERSWEET—

Native climber, with handsome, glossy foliage. The flowers are not conspicuous, but the chief glory of the vine consists of the large clusters of beautiful, orange-crimson fruits, in quaint yellow husks, retained all winter. Bright in effect, its graceful sprays of berries are charming for winter house-decoration, and are used for draping doorways, mantels, and pictures. **3 yr., 75c.**

CLEMATIS

JACKMANII—

Flowers, when fully expanded, are 4 to 6 inches in diameter, intense violet-purple, with a rich, velvety appearance distinctly veined. It blooms continually from July until cut off by frost. **Potted plants, 75c.**

ENGELMAN'S IVY—

This variety is a rapid grower has beautiful dark green foliage, and in the fall gives a beautiful autumn effect, the leaves changing to almost crimson. It is used to great advantage on churches and large buildings of all kinds, to soften the hard stone and brick effects. **2 yr., 50c.**

BOSTON IVY—

Used generally to cover walls, its fine shoots extending to the roofs of tall buildings. In the fall the leaves assume the most gorgeous and varied tints. The young leaves are quite distinct from those which are of older growth. The vine can be made to cling even to wood. The young plants require some covering in winter for a year or more. Not altogether hardy in Minnesota. **2 yr., 75c; 3 yr., \$1.00.**

SCARLET TRUMPET HONEYSUCKLE—

Hardest and most generally used variety. This bears during the summer clusters of scarlet, tubular flowers and is one of the freest and best varieties. Handsome in foliage and fruit. **2 yr., 50c.**

HECKROTTI—Honeysuckle, Summer King, Gold Flame—

A wonderful new honeysuckle that naturally grows as a vine but by careful trimming can also be easily grown as a shrub 2 to 5 feet in height as desired. It is covered with hundreds of fragrant flowers, flame-scarlet outside and golden-yellow inside. Our strong No. 1 plants will bloom this summer. **Each 75c; smaller plants, 50c.**

SHEARING EVERGREENS

Evergreens planted on the lawn can usually be allowed to grow about as they like, but those planted near the house must be properly sheared or they will not only get too large but will often become open and scraggy. This shearing is easy to do and most anyone can do it but it is very important that it be done at the proper time. The shearing will be much more satisfactory if done every year so it will not be necessary to cut anything except the present year's growth. In cutting this new growth there should be at least an inch left on each twig as this will encourage the production of new buds from which next year's growth will start.

Shear Mugho Pine the first week in June, Spruces during the latter part of June.

Junipers and Arborvitae may be sheared in early spring if they had not been sheared the summer before, to be followed by the usual summer shearing. The regular annual shearing of these varieties may be done any time from June through August, probably the best time being the latter part of July.

WATERING EVERGREENS

Lack of water is the cause of the death of about 90 per cent of the evergreens which fail to survive the first summer after planting. When an evergreen is planted on the lawn or any other place where there is sod, or near other trees, there should be a depression left around the tree to hold water, and for the first season it should be thoroughly watered once a week. If evergreens are planted in cultivated ground and the weeds kept down this watering is not necessary except in unusually dry seasons.

Evergreens, as well as other trees, shrubs and perennials, are benefitted by a mulching of manure, peat, rotted straw or lawn clippings.

We do Not Ship Evergreens

On account of the excessive cost of packing evergreens for shipment, and the shortage of expert help for such work, we cannot ship any evergreens.

You may call for them at the nursery, or we will deliver them at your home in Rochester.

EVERGREENS

Prices Include Digging Evergreens with Ball and Burlap

AMERICAN ARBORVITAE—

The habit is erect, and pyramidal, the foliage soft and light green in color. This Arborvitae should be included in groups and all evergreen plantings. They are unequalled as tall hedges to form screen for unsightly objects or for shelter belts or a blind about clothes yards, etc. They grow quickly and if planted closely in hedges give the desired effect promptly. They may be kept at any height and made more dense and bushy by trimming, which they endure readily. **18-24 inch, \$1.50; 2-3 ft., \$2.50.**

PYRAMIDAL ARBORVITAE—

The most compact and erect of the species, forming a solid pyramid of green that retains its slender shape without shearing. However, it may be made more compact and kept at any desired height by shearing. Useful for entrance and corner plantings. **18-24 inch, \$3.00; 24-30 inch, \$4.00; 30-36 inch, \$5.00.**

SIBERIAN ARBORVITAE—

A compact, dense, bushy plant. Conical in outline. Foliage a rich dark almost bluish-green. The hardiest of the Arborvitae and with its distinctive size, form and foliage texture fills a place in the landscape that no other evergreen does. **18-24 inch, \$4.00; 24-30 inch, \$6.00.**

ANDORRA JUNIPER—

A low growing spreading dwarf evergreen of real merit. Its rich silvery green of summer turns to a beautiful purplish bronze in fall. As the sap starts to move in the spring, this color intensifies and becomes truly striking. With the coming of new growth its more sombre green hue is resumed for the rest of the summer months. **12-18 inch, \$2.00; 18-24 inch, \$3.00; 2-3 ft., \$4.00.**

DUNDEE JUNIPER—

This outstanding Juniper is upright growing, is bluish-gray in the spring and summer and changes to a plum-like color in the fall and winter. Without doubt the most satisfactory of all the upright Junipers. **30-36 inch, \$8.00; 36-42 inch, \$9.00; 42-48 inch, \$10.00.**

PFITZER JUNIPER—

A graceful, broad, low evergreen with sweeping fronds of grayish or bluish-green foliage. The strong tips give a definite horizontal line to its effect. Very hardy, standing full sun and also does well in semi-shaded locations. **12-18 inch, \$2.50; 18-24 inch, \$4.00; 24-30 inch, \$6.00.**

SAVIN JUNIPER—

Another of the most popular low foundation evergreens. More compact and a richer green than the Pfitzer. While growing in an upright, spreading, horizontal manner the tips are more heavily branched so that the plant seems more compact and without the horizontal tip effect achieved by the Pfitzer. Very hardy. **12-18 inch, \$2.00; 18-24 inch, \$4.00; 24-30 inch, \$6.00.**

PINE, MUGHO—

This is an excellent dwarf pine, being globe shaped and erect branching. It is very attractive, especially in spring, when the new growth which seems like miniature candles completely covers the bush. **12-18 inches wide, \$3.00; 18-24 inches wide, \$6.00; 24-30 inches wide, \$8.00.**

BLUE SPRUCE—

The queen of the spruce family; the color is a beautiful blue, which holds well all through the year; this is one of the most valuable of ornamental evergreens. **1-2 ft., \$3.00; 2-3 ft., \$5.00; 3-4 ft., \$7.00.**

DWARF YEWE—

A hardy, dwarf, slow-growing evergreen. Foliage is very heavy and of a waxy, shiny green color. Will thrive in dense shade. **12-18 inch, \$3.00.**

WHITE SPRUCE—

Makes a compact and upright growth. Grows nearly as fast as the Norway Spruce and is more compact. One of the most reliable windbreak trees, being hardy and long-lived. **3-4 ft., \$4.00; 4-5 ft., \$5.00; 5-6 ft., \$6.00.**

BLACK HILLS SPRUCE—

One of the hardiest and finest of all spruces—symmetrical, compact and bushy in growth. The foliage varying from a green to bluish-green tint makes the trees always striking for their bright, fresh color. One of the finest spruces for landscape purposes. **2-3 ft., \$2.50; 3-4 ft., \$4.00; 4-5 ft., \$5.00.**

DOUGLAS FIR—

This is a fine ornamental evergreen of graceful proportions, good color, rapid growth and extreme hardiness. It makes a large tree and should be planted where it will have plenty of room. Should be included in a mass planting of evergreens. **3-4 ft., \$4.00; 4-5 ft., \$5.00.**

APPLES

PRICES OF APPLE TREES

	Each	5	10
5-7 ft.	\$1.50	\$ 7.00	\$13.50

YELLOW TRANSPARENT—

Ripens about August 1st. Flesh juicy, tender and of fine flavor.

DUCHESS—

A vigorous growing, hardy tree and heavy bearer. Fruit is large, greenish yellow, striped with red. The standard early apple for the Northwest.

BEACON—

The new Beacon is a fall apple, ripening with or a few days later than Duchess, and will keep for a month after harvest even without cold storage facilities. It is a highly colored, all-red variety—better eating than Duchess and is an excellent cooking Apple. The tree is vigorous, productive, and very hardy. **The early season, the uniform size and shape, the high color and quality,** together with the keeping and handling quality so different from most early apples, makes Beacon the out-standing early apple for home or for market.

WEALTHY—

The leading commercial variety for fall. In any orchard in this part of the country you will find Wealthy as the main variety. It is a great bearer, excellent for eating fresh or cooking. Fine grained and juicy. Ripens in September and is the best known and best liked of the fall varieties.

McINTOSH—

Fruit above medium size, yellow covered with crimson, flesh snow white, crisp, very tender, aromatic and sub-acid. October to January.

VICTORY—

The trees are hardy, vigorous and very productive; fruit is medium to large in size; color is bright, attractive medium red. The flesh is white, fine grained, tender, juicy, aromatic; flavor similar to McIntosh, except slightly more acid. Quality excellent for dessert or culinary purposes. Season of use, October 15 to March 15.

PRAIRIE SPY—

Prairie Spy is a big red apple with some green on it. An apple of the finest quality that will keep through the winter in an ordinary cellar. The tree is hardy here, a heavy bearer, and should be included in every home orchard and is undoubtedly one of the best varieties for the commercial orchard.

FIRESIDE—

It has a richness of flavor and a mildness in acidity that will appeal to the many people who prefer highly flavored, non-tart fruits of the Delicious type. Fireside produces a strongly branched, large, and free growing tree which gives every evidence of being a consistent annual bearer. The fruit is large, averaging three inches or more in diameter. The color is a very bright, attractive medium red, lightly striped and splashed with a darker red. The flavor is a mild subacid, very rich and pleasant. The quality is unexcelled for dessert purposes. Season from November to April.

NORTHWESTERN GREENING—

Fruit very large, and handsome; turning yellow as it matures. This apple is in good demand as a cooking apple in late winter and spring. A good commercial variety in the southeast third of Minnesota. Season December to March.

HARALSON—

Its size, shape and color are just right for an ideal commercial apple. The tree is extremely vigorous, productive and hardy. The branches spring at wide angles from the central trunk and are very strong in the crotches. **The fruit will keep in an ordinary cellar throughout the winter** without artificial refrigeration. An early, heavy bearer. The fruit hangs well to the tree until matured, is a deep red and the flesh is firm. Is a leading market variety and keeps all winter. Is an all purpose apple and is unexcelled for pies.

WHITNEY—

A large, red, mild flavored Crab, excellent for eating, canning, and pickles. Perfectly hardy, never blights and is a heavy cropper.

DOLGO—

Fruit is oblong, of real beauty and peculiar lemon-acid in flavor. Entirely different from any other crab apple and far superior for jellies, producing a transparent bright red jelly of high quality. The fruit is distinctly beautiful, borne in great profusion. Dolgo is a beautiful lawn tree, in addition to producing fruit of superior quality. It is a striking thing to see the masses of red fruit clustered along the branches.

PRICES OF APPLE TREES

	Each	5	10
5-7 ft.	\$1.50	\$7.00	\$13.50

Plums

The choice list of Mammoth Plums described below are considered the cream of the list. Our recommendation is to plant the full assortment as each has a different season—each a different flavor. You will find them all excellent. A pollinizer Plum should be included in every group.

SUPERIOR—

One of the very largest and very best of the Jumbo Plums originated by the Minnesota State Fruit Breeding Farm. The tree bears early and is a regular and heavy cropper. The fruit is very large, firm fleshed, beautiful red color and delicious quality to eat out of hand. Superior is one of the better Plums for home or for market.

UNDERWOOD—

The Underwood is valuable because of its large, early fruit and annual bearing. It is the earliest of the large Plums, attaining a size of 1¾ inches in diameter. Fruit is attractive red with splendid quality, small pit.

EMBER—

Without doubt the best late Plum. It is well described by Prof. W. H. Alderman, Chief, Division of Horticulture, U. of M., who writes: "Ember is a late Plum of good size and has exceptionally fine dessert and canning qualities. It is yellow with attractive red blush. It has two valuable and outstanding characteristics; it hangs to the tree tenaciously even at full maturity, and after picking will keep in good condition for two or three weeks." This late Plum, together with the earlier varieties mentioned, make a splendid assortment for the home or for market.

HANSKA POLLINIZER— (Apricot-Plum cross)

A midseason variety bearing a round, brilliant red Plum with a wonderful aroma. It has a fine flavor and is a wonderful variety to eat from the tree, but it is especially fine as a canning Plum.

PRICES OF ALL PLUM TREES

5-6 ft. \$1.80 each; 3 for \$5.00

Hardy Cherries

You don't need an orchard to grow cherries, for the small size, attractive form, foliage and color of these trees make them valuable assets to any ornamental border.

The splendid cherries we list on this page have adequately proven their desirability both from the home garden or market point of view. With an assortment of these one can have the finest of cherries for eating and for canning.

Compass is the best pollinizer for the other cherries and should always be planted with them.

OKA—

A tremendous yielder of large round cherries fully one inch in diameter. Dark red outside with a juicy, purple meat inside. Wonderfully sweet. The best of all the purple fleshed cherries.

SAPA—

Another excellent Cherry-plum hybrid with purple flesh and juice. Sapa is somewhat larger than Oka and has more of its plum parent characteristics. Bears at a very early age and is usually an annual bearer.

COMPASS—

While this fine old variety is not the equal of the other three cherries in quality it is a most acceptable and popular fruit for canning. It is the best pollinizer known for the other cherries and should be included in all plantings. **4-5 ft., \$1.50 each.**

NANKING CHERRY NO. 41—

Ornamental as well as fruitful they are very hardy, very productive and have excellent quality. The bushes are attractive in the spring when they are a mass of bloom and again in July when they are covered with ropes of red or yellowish red fruit. The fruits have a true cherry-like flavor and are excellent for sauce or jelly making. **3-4 ft., \$1.50 each.**

Mail Orders

If not convenient for you to come to the nursery we will be glad to receive your mail orders.

Strawberries, raspberries and perennials will be sent by parcel post, prepaid, at prices quoted. Other stock will be sent by freight or express, purchaser to pay charges. Nursery is located on paved highway, U. S. 14, eight miles west of Rochester.

Strawberries

Strawberries should always be planted in the spring, the earlier the better.

DUNLAP—

The berries are medium to large, conical and often slightly necked, dark crimson, with deep red flesh; quality very good. The plants are healthy and vigorous. Very productive, grows on all types of soil and in extremely cold climates. One of the best canning varieties. It can be shipped to far distant markets. Holds up a long time after picking. Season, a few days after Premier comes into bearing. 25 for 75c; 50 for \$1.25; 100 for \$2.25.

PREMIER—

Perhaps the most popular June bearer at the present time. Ripens very early, productive and hardy, also a fair to good plant maker. Berries bright red, fairly firm, of good quality. 25 for 90c; 50 for \$1.50; 100 for \$2.50.

BURGUNDY—

A recent introduction of the Minnesota Fruit Breeding Farm. Flowers are imperfect so it must be planted alongside one of the other varieties for pollination. It is exceptionally late in season, highly productive, and is unexcelled for canning and freezing. 25 plants, \$1.00; 50, \$1.75; 100, \$3.00.

EVERBEARING

EVERMORE (Minn. No. 1166)—

Produces an enormous crop of large, firm, glistening red berries. Berries are long and of delicious flavor. Is a very good plant maker. 12 plants, 80c; 25, \$1.50; 50, \$2.75; 100, \$5.00.

GEM—

Unlike most everbearers, this variety is an excellent plant maker. The plants are very healthy and vigorous, producing an abundance of runners, which bear fruit the first season. The berries are large, bright, red, firm, roundish in shape, rather tart but of good flavor and quality. Good for dessert or culinary uses. Very attractive in appearance and sell well on the fresh fruit markets. Gem Everbearing. 25 for \$1.00; 50 for \$1.75; 100 for \$3.50.

BRUNE'S MARVEL—

A new non-acid everbearing Strawberry. Can be eaten by those who are affected with rash by other Strawberries. No sugar is required as they are unusually sweet. The berries are of glittering red, almost seedless. Brune's Marvel is a thrifty plant maker, making a good full-fruited row. 25 plants, \$1.00; 50, \$1.75; 100, \$3.50.

Strawberry Plants and Berry Bushes
Will Be Sent Postpaid

Raspberries

EARLY SUNRISE—

Without doubt the best early red raspberry for Minnesota. Berries are large and of fine flavor. Plants are heavy yielders, very hardy and disease resistant. No. 1 plants, 12 for \$1.50; 25 for \$2.75; 50 for \$5.00; 100 for \$9.50. No. 2 plants, 12 for \$1.00; 25 for \$2.00; 50 for \$3.50; 100 for \$6.50; 1000 for \$45.00.

LATHAM—

This is one of the outstanding productions of the Minnesota Fruit Breeding Farm and has become the most popular red raspberry in the Northern states. Ripens a week or more later than the Early Sunrise and is a large, bright red berry of good quality. Produces heavy crops and is very hardy. No. 1 plants, 12 for \$1.50; 25 for \$2.75; 50 for \$5.00; 100 for \$9.50.

SODUS PURPLE CAP—

A new purple cap originated by the New York Experiment Station. It is extremely vigorous, hardy and drought resistant. Sodus has surpassed all others in growth of cane and in production. The berries are large, firm, medium purple in color, sprightly and good in quality. It ripens shortly after Latham. Sodus is an exceptionally heavy producer and is proving out to be the most dependable and profitable of all purple caps. It does not require winter protection in Minnesota. Strong 2 yr. plants: 12, \$2.00; 25, \$3.75; 50, \$6.00; 100, \$12.00.

OLDER BLACK RASPBERRY—

This is the only black raspberry we know of that is entirely hardy here. Is very productive of rich, juicy berries. Strong 2 yr. plants: 12, \$2.00; 25, \$3.75; 50, \$6.00; 100, \$12.00.

Currants

RED LAKE CURRANTS—

Originated recently at the Minnesota State Fruit Breeding Farm—finest of all Red Currants. The berry is unusually large in size and of superior quality; the clusters are long and filled out to the top, with stems sufficiently long to make picking easy. Berries are a clear light red and the quality excellent. The bush is vigorous, upright, and productive. Ripens early mid-season, but holds on over a long period so it can be used or marketed as desired. 2 yr. plants, 60c; 3 for \$1.50.

Gooseberries

PIXWELL—

One of Professor Yeager's wonderful productions. A cross between a native wild selection and a high quality cultivated sort. The berries are very large. The plants rapid growing and vigorous. A heavy bearer. Fruit on long stems and bushes sparse in thorns, hence they are very easy to pick.

CARRIE (The Thornless Gooseberry)—

For many years Carrie has been the most widely grown gooseberry here in the Middlewest. It forms a vigorous, healthy bush and is a sure, regular bearer of large crops of berries of medium size which turn reddish brown as they ripen.

GOOSEBERRY PRICES

	1	3	6
2 year	\$.70	\$2.00	\$3.60

Grapes

FREDONIA—

The new outstanding, early black Grape. Fredonia is the earliest good black Grape. The vine is vigorous and productive and ripens its fruit 3 weeks earlier than Concord. Fruit is large, sweet and of good quality.

WORDEN—

A large, sweet and fine flavored grape. A fine dessert grape but needs winter protection.

BETA GRAPE—

A heavy, annual bearer, hardy as the wild grape. Medium size black fruit of extra good quality for juice and jelly, and ripens so early that it can be grown far north. The Beta withstands our severe northern winters without protection. They may be grown on fences, over a building, or in a windmill tower and should bear heavily every year.

PRICES OF GRAPE VINES

2 yr., 50c; 6 for \$2.50.

Rhubarb

RUBY RED—

Another new Red Rhubarb introduced from Canada. The stalks are intensely red as the name implies—even the inside of the stalk is red. Rhubarb sauce made from Ruby is as red as strawberry sauce. The skin is so tender it can be cooked with the stalk. Both Ruby and MacDonald are money-makers on the market because they sell on sight at a premium over common Rhubarb. Price, strong divisions, 60 each; 3 for \$1.50.

NEW CHAPMAN'S CANADA RED—

One of the best of the new improved varieties. Very sweet, tender, of fine flavor, with extra-large stalks, bright red all the way through, the red color extending even to the mid-rib of the leaf. Does not lose its bright color in cooking, and both sauce and pies are an appetizing cherry-red color. Chipman's is vigorous in growth, of the hardy, everbearing type, and does not make seed. Price, 70c each; 2 for \$1.30.

CASH AND CARRY

We are always glad to have our customers come to the nursery and make their own selections. It does not usually take long to assemble your order and we can pack most any ordinary order so you can carry it on your car. Our working hours: 7 a.m. until dark.

HARDY PERENNIALS

HARDY PERENNIALS—

Perennials are becoming more and more popular with the increase in gardening. No home grounds are now completely planted without a border of these continuously blooming plants. If you plan carefully you can have flowers all year. For your selection there is listed here a wide variety of those dependable, hardy plants, that once established, assure you of a succession of blossoms without the constant trouble of replanting. **Prices of perennials, except as noted: 35c each; 12 for \$3.50. Postpaid.** Strong field-grown plants that will bloom the first year.

FALL BLOOMING ASTERS

Plant these brilliant fall-blooming hardy Asters and prolong your blooming season a full month. Have your garden a place of dazzling splendor when all about is brown and sere. They will bring a world of color during late September, all of October, and on into November until heavy freezing kills the flowers. These plants stand our Minnesota winters unprotected.

ADORABLE—

Best true pink hardy aster. Habit and growth are similar to Harrington Pink but color is slightly deeper salmon pink. **45c.**

MOUNT EVEREST—

The finest and best white aster. It forms very tall, well-shaped pointed pyramids with an abundance of lateral growths, which flower right down to the ground. Makes wonderful bouquets as cut flowers. **45c.**

BLUE GEM—

Large, lovely flowers of blue with a yellow center, best blue in cultivation. September until frost. 3 to 4 feet. **45c.**

BEECHWOOD CHALLENGER—

This variety is in our opinion the closest to red we have been able to come so far in Hardy Asters. It is free-flowering, of medium height, and brilliant crimson-red color. The flowers are freely produced. Planted together with Mount Everest, the contrast is striking. **45c.**

COLUMBINE

Delicate flowers in many colors, Long spurred. June and July. 24 inches.

COREOPSIS

Large brilliant yellow flowers. Stems long, graceful. Blooms all summer. 2 feet.

CORAL BELLS

Low-growing, tufted, plants which bear a profusion of dainty coral-red flowers on long, slender stems. Blooms nearly all summer.

DELPHINIUM

BELLADONNA—

The freest and most continuous blooming of all, never being out of flowers from the end of June until cut down by hard frost. The clear turquoise-blue of its flowers is not equaled for delicacy and beauty by any other flower.

D. BELLAMOSA—

A free-blooming, dark blue type.

BLACKMORE & LANGDON STRAIN—

A famous English strain. All the clear shades of blue, with bees of contrasting colors.

BLEEDING HEART

DIELYTRA SPECTABILIS—

Blooms May to June. Height 2 feet. Flowers pink and white; heart-shaped. **75c.**

D. EXIMIA—

Plumy Bleeding Heart. Finely cut, fern-like foliage with showy rose-colored flowers. Blooms all summer. Stands partial shade. Height, 18 inches.

GYPSOPHILA

BRISTOL FAIRY—

A double Baby Breath of great vigor, producing large panicles of flowers and blooming more or less continuously all summer, if first blooms are cut. **75c.**

ROSY VEIL—

A new dwarf pink double-flowering Gypsophila. Established plants reach a height of 2 feet and bloom in summer and fall. They start blooming 2 weeks earlier than the tall double Gypsophila and continue later in the season. Fit perfectly in the garden and are fine for cutting. **75c.**

GAILLARDIA

Gay blooms with reddish-brown centers and yellow, daisy-like petals ringed with red. June to November. 18 to 24 inches. Fine for cutting.

PLATYCODON

BALLOON FLOWER—

Large, showy, balloon-shaped buds which open to star-shaped flowers. Blue. June to September.

PYRETHRUM ROSEUM

PAINTED DAISY—

Beautiful daisies of pink and red cover the plant in June. 2 feet.

LILIES

REGAL—

The large, trumpet-shaped flowers are snowy white, with a pure yellow center, while the exterior of the petals is slightly tinged pink. It is a strong grower, attaining the height of three or four feet. The flowers are beautiful, possessing a delightful fragrance. **Large bulbs, 30c.**

ELEGANS—

The fiery-red blooms of this lily are borne in large clusters on medium height, stocky stems. Blooms profusely in June and July and is very hardy. Large blooming size bulbs. **10c each; 6 for 50c.**

PRICES OF PERENNIALS, unless noted otherwise, 35c each; 12 for \$3.50.

DOUBLE TIGER—

Five feet. Produces an abundance of orange-scarlet flowers in August. Very hardy and vigorous. Large bulbs. **10c each; 6 for 50c.**

CORAL LILY—

2 feet. The brilliant coral-red flowers are borne in clusters of 5-15 on slender stems. Fine for rock garden or border. Bulbs, **25c each.**

LYTHRUM

PURPLE LOOSESTRIFE MORDENA—

This is a new Lythrum brought out by the Canadian Experimental Farm at Morden, Manitoba. We think it the best of all the Lythrum and a great improvement over the old types. Long upright growing stems just covered their length with little deep bright rose-pink flowers. This is a good one. Showy plants for moist, shady borders, and watersides. A very useful cut flower, blooms nearly all summer. **Blooming size plants, 25c; clumps, 50c.**

SHASTA DAISY

ALASKA—

In July and August bears a great profusion of immense, gleaming white blooms, excellent for cutting. 18-24 inch.

EARLY ELDER—

Glistening white flowers in early June, making a beautiful display in the garden and especially fine for bouquets. 15 inches. Multiply rapidly and roots should be divided in August and reset.

DOUBLE—

The pure white flowers are completely double and produced freely from June to October. They are of excellent lasting quality. The stems are about 18 inches high, very stiff, holding the heavy double pure white blooms upright. Excellent for the border as well as for cutting. **50c each.**

GLADIOLUS

BEACON—

Dark rose with cream blotch, slightly ruffled.

BERTY SNOW—

Lavender-pink with large florets.

BLAZE—

Light scarlet, large florets.

GIANT NYMPH—

Pink.

GOLDEN DREAM—

Deep yellow.

MARGARET FULTON—

Clear coral-pink with lighter penciling.

MINUET—

Large uniform, clear lavender.

MAID OF ORLEANS—

Large creamy-white with deeper throat.

MASTER MYRON—

Clear, self-colored, bright red.

PRIDE OF WANAKAH—

Tall deep rose with darker blotch.

PICARDY—

Salmon Pink.

REWI FALLU—

Dark red.

SHIRLEY TEMPLE—

Large ruffled cream.

Prices, named varieties, 10c each; \$1.00 per 12. Mixtures, 85c per 12.

VIGORO IS IDEAL FOR LAWNS, FLOWERS, SHRUBS, TREES, VEGETABLES!

PERENNIAL PHLOX

Field grown plants, 35c each; 12 for \$3.50.

AFRICA—

Brilliant carmine-red with a deep blood-red eye.

BRILLIANT—

Large trusses of brilliant crimson flowers, darker eye.

RIJNSTROOM—

Lively shade of rose-pink, very large.

JULES SANDEAU—

A dwarf free flowering salmon-pink.

SUBULATA (Creeping Phlox)—

Blooms in May, when whole plant is a vivid mass of lavender-pink. Very bushy.

DR. CHAS. MAYO—

Another Phlox somewhat similar to Count Zeppelin and yet entirely distinct. A very strong grower. One of the late W. E. Fryer's best Phlox. Very little subject to troubles that beset the Phlox.

MORGENROOD—

A real novelty. Large trusses of bright rose with a deeper reddish eye. A strong grower with very large individual florets.

Peonies

A few choice plants of Peonies will fill your garden with color and fragrance from late May through June. Even the rose cannot excel in beauty and charm the flowers of the modern Peony. Here, under our northern conditions, it is peer of all flowers in combining so well the qualities of absolute hardiness, great color variation, size, beauty and fragrance of bloom.

BARONESS SCHROEDER—

Light pink tint, opening to pure white. Globe shaped. Late. \$1.00.

EDULIS SUPERBA—

Bright mauve pink. Early. 75c.

FELIX CROUSSE—

Brilliant red. Large globular flower. Fragrant. 75c.

FESTIVA MAXIMA—

Early and very large. White, with center flaked crimson. Splendid in every way. 75c.

KARL ROSEFIELD—

Rich, glowing crimson. Immense, solid flower. Superb variety. Midseason. 75c.

SARAH BERNHARDT—

Apple blossom pink silver-tipped. Midseason. Fragrant. \$1.00.

R. P. STRUTHERS—

Tall. A bright rosy carmine with claret eye.

PAINTED LADY—

Soft, silvery shaded salmon, bright-red eye. Large individual flowers. Free-flowering.

MARY LOUISE—

A good grower of medium height with clean foliage. Produces pure glistening snow-white heads of unusually large size, the individual flowers being twice as large as other white varieties. 40c.

MRS. JENKINS—

A medium tall, early blooming beautiful white.

RHEINLANDER—

A most beautiful salmon-pink with deeper center. Immense size.

STARLIGHT—

A comparatively new Phlox. Deep violet fading to lilac, with a large, star-shaped white center. A good tall Phlox.

THOR—

An old dependable variety that always gives satisfaction. Grows to medium height. Throws up lots of strong stems which are always covered with great, nicely shaped trusses in pleasing salmon-pink.

Dahlias

JANE COWL—

A large flower of warm buff and old gold, blending to a bright salmon at the center.

JERRY'S BEACON—

A huge round bloom, of Chinese scarlet and a paler reverse side giving it a two-tone effect. Plant is very vigorous.

WHITE KING—

Pure white.

AVALON—

Pure, clear yellow, with large flowers.

JERSEY BEAUTY—

Undoubtedly the finest pink Dahlia in existence. A perfect bloom, carried high on wiry stem.

MRS. I. De ver WARNER—

Lavender. Strong grower with long straight stems.

PRIDE OF CALIFORNIA—

Vivid red, very large, free flowering. Price of Dahlia tubers, 60c ea.; 3 for \$1.50.

Asparagus

A little space in the garden will grow all the asparagus you need. Plant the roots in deep rich soil, the crowns about four inches below the surface. Use plenty of manure and keep out the quack grass and a patch will last many years.

PARADISE ASPARAGUS—

One of the newer varieties, very similar in appearance to the Washington. Is highly rust-resistant and a heavier producer. Grows a large crop a full year earlier. Shoots are large and green and of finest quality.

GREENHOUSE PLANTS

When it is time to set out plants in the vegetable garden, or the window boxes need to be filled, or you want some annual flowers for the flower border, remember that we have everything you need.

We have erected a new greenhouse this spring, to be able to handle our increasing business.

VEGETABLE PLANTS

In our tomato and other vegetable plants we grow strong well-rooted plants and only those varieties which produce the best in this area. This year we are offering a new style of potted tomato plants; a dozen plants in 2 inch pots set in a small flat. These are stocky plants and have an undisturbed root system when you set them out. They may be had in any variety listed, at 60c per dozen plants.

Garden **CHRYSANTHEMUMS**

*For a Radiant Display of Color,
Beauty and Form*

These Chrysanthemums are a wonderful addition to the garden, producing lots of color for the late summer and autumn.

The plants are grown in 3 inch pots and are healthy, sturdy and true to name.

10 GREAT NEW CHICAGO MUMS

AUTUMN GREETINGS—

A mass of bright copper and gold flowers.

AUTUMN SONG—

Large wine-rose shading to carmine. One of the most outstanding of the Chicago strain.

BARBARA SMALL—

Pinkish lavender flowers of good size.

CALCITE—

Chalk-white with pale sulphur-yellow center. Very heavy bloomer.

CHARLES NYE—

The Mum of the Year! Large fully-double, rounded flowers of rich buttercup yellow and firm substance.

COURAGEOUS—

Very good ruby-red flowers. One of the best reds. Good growing habit.

EARLY HARVEST—

A mass of glowing mahogany-orange flowers. One of the very best early Mums and far superior to any cushion variety.

HARBINGER—

A glorious, early bronze.

HEATHERBLOOM—

Very double heather-pink, center shaded rose-red with gold tipping.

ZANTHA—

Completely double, clear canary-yellow flowers 1½ inches in diameter; compact, globular form.

Above varieties 50c each; \$4.50 dozen.

10 Beautiful EARLY FLOWERING MUMS

AURORA—

A mass of 2 inch red flowers—dwarf.

BUTTERBALL—

One of the best early yellows. Color, bright golden yellow. Tidy plant habit.

CHIPPEWA—

Very showy, giant 4 inch aster-like blooms from early September 'till frost.

EUGENE A. WONDER—

Brilliant glistening golden yellow flowers in mid-September. Large flowers in great profusion. One of the very best hardy Mums.

MAROON & GOLD—

Prof. Longley's newest sensation! Immense 4 inch mahogany flowers shaded with U. of M. colors. Blooms early September.

MY LADY—

A lovely combination of gold with bronze-red shadings. In bloom practically all summer.

POHATCONG—

One of the best large truly deep pink Mums.

REDHAWK—

Double glaring reddish bronze. Compact plant. A real beauty.

VIOLET—

Dr. Longley's newest purple. Full double dahlia-like bloom of good color and substance.

WHITE KNIGHT—

Pure white—very good for cut flowers.

Above varieties 40c each; \$3.50 dozen.

10 OF THE "OLD STANDBYS"

ALGONQUIN—

A good early bright yellow.

AVALANCHE—

One of the best white Mums. Flower 4 inches across, creamy white. Good cut-flower.

BRONZE CUSHION—

Deep bronze flowers turning to copper yellow.

DAHLIA MUM—

Color dark wine-red. Very free flowering. Petals long and narrow, with many of them twisted and curled, giving an unusual effect.

DEAN KAY—

Double rose-pink flowers in a profuse mass, starting to bloom in July. Perfectly hardy.

RED CUSHION—

Deep bronzy-red, good compact habit.

RED GOLD—

One of the most striking Mums. The 2 inch flowers are scarlet to brazil-red in color, completely covering the upright plant.

PINK CUSHION—

Light pink flowers in great profusion.

PYGMY GOLD—

Produces quantities of miniature blooms slightly over 1 inch across. Color is clear yellow, remarkable for its brilliance and intensity.

SUN RED—

A very free blooming single red.

Above varieties 30c each; \$2.50 dozen.

BERRY BOXES

The Ewald Folding Berry Box is the most convenient box to use as they require only a little space for storing and are quickly set up when you want to use them.

125 quart boxes, packed in one 16 qt. crate	\$ 2.00
500 quart boxes, packed in four 16 qt. crates	7.25
1000 quart boxes, packed in eight 16 qt. crates	14.00
200 pint boxes, packed in one 16 qt. crate	2.75
1000 pint boxes, packed in five 16 qt. crates	13.00

Cutting's Reliable LAWN SEED

We mix our own lawn seed, using a formula developed as a result of experiments by the lawn specialists at University Farm, supplemented by our experience in making lawns in Minnesota.

Our mixture contains Kentucky Blue Grass, Red Top, Perennial Rye Grass and White Clover. Use one pound to 250 square feet. 1 lb., 90c; 10 lbs., \$8.50.

SHADY PLACE MIXTURE

This is a special mixture of the varieties of grass seed that do well in the shade. By planting this seed, then using fertilizer and water to replace that removed by the trees you can grow a good lawn in the shade. **Lb., \$1.00.**

VIGORO

For lawns, flowers, small fruits and the vegetable garden **Vigoro** is the ideal fertilizer. Apply it to the lawn in early spring and watch the grass turn green and grow luxuriously. It improves both the quality and quantity of all kinds of flowers, both annual and perennial and will add greatly to the quality and the production of your vegetables, small fruits and ornamental shrubs.

Vigoro contains all the 11 elements needed for proper plant nourishment. Use 4 lbs. to 100 Sq. Ft. 100 lbs., \$4.00; 50 lbs., \$2.50; 25 lbs., \$1.50; 10 lbs., 85c.

MILORGANITE Fertilizer

MILORGANITE promotes *steady, healthy, uniform growth* because its water-insoluble organic nitrogen is released slowly, and is converted into available plant food as needed. That's why lawns fed with Milorganite stay green longer.

EASY TO USE—Each particle is a distinct granule (not a powder), so Milorganite does not cling to vegetation. It is clean, dustless, and free-flowing, too, hence easy to apply, even on a windy day, as it does not blow away during spreading. **Prices: 100 lbs., \$3.50; 50 lbs., \$2.00.**
